THEIR STORY

Ignite Studio is a fitness studio located in Duluth, MN. They specialize in Zumba, Aerial, Pilates, and other cardiovascular exercise classes that do not require major equipment. As the very first customer of Buzz Frenzy* Ignite Studio has the deepest data history of any bee in the system.

Ignite Studio started in a 2,000 square foot space and have recently moved into a newly remodeled 6,000 square foot facility. Their customer base has grown consistently every month including, most notably, in the summer months, the industry's traditional slow season.

Ignite Studio has only ever marketed with Buzz Frenzy.

**Ignite Studio is owned by Dan Stocke's wife, Christine. It was her need to find an efficient method of advertising that sparked the concept that led to the creation of Buzz Frenzy.*
